

A) Title: Ram Prasad Chaliha Memorial Lecture

Goal: To provide a platform for academic discussion and research in the areas like Anthropology, History, Culture, Literature, Science and issues related to the state of Assam.

Context: Lecture is organised to mark the occasion of Naharkatiya College Foundation day and to pay tribute to the founder Principal Late Ram Prasad Chaliha and other founder members.

Practice: Social and academic leaders and scholars are invited to deliver a lecture on topics related to the Socio- cultural, anthropological issues of Assam and recent developments in science. Further the lecture is published in the form of a book.

Evidence of Success: A few of the Lectures has been published in book form.

Obstacle: Sometimes appointment issues with the resource persons delay the arrangement of the memorial lecture. Some of the resource persons have not submitted their lectures restricting us to publish them in book form. Moreover, during corona pandemic period the college could not arrange the lecture.

Note: The Lecture enhances knowledge by building comprehension and appreciation towards own cultural heritage and the published books add new knowledge to the academic arena.

B) Title: Maintenance of Clean and Green Campus

Goal: Nature is always thought to be the best teacher ever. So the objective of this practice is to keep the college campus green and clean, so that students can feel the beauty of nature in the midst of learning.

Context: In today's world, environment degradation is the name of development is a common phenomenon. Human beings cannot survive without the existence of the nature. But to preserve the beauty of nature, we must preserve the environmental values of sustainable development.

Practice: To keep the campus green and to preserve the environment, regular plantation activities are carried out by the NSS unit and other cells of the college. To make the students aware about the ill effects of the plastic use, signboards with quotations are displayed at different locations within the college campus. Sufficient numbers of dustbins are also placed in the campus.

Evidence of Success: The number of trees in the campus and the view as well support the existence of the practice. The campus of the college is full of greenery.

Obstacle: Some of the areas within the campus are low land areas and it affects the survival of the saplings during the rainy season.

Note: Green campus and pollution free campus
